I have thought so also, & while in the District since I had taken steps preliminary to assessing the contributions - Port Pahaun is always an operation effected by the Revenue dept, and if the Port Pahaun of a whole taluk can be effected in 2 or 3 months as is often done when the settlement is then introduced that of one taluk like Neemsun can be done in much less time - Special agency will of course be required in the one case as in the other, & the employt of a once for Neemsun taluk and other always commanded by the Channel Extension is only anticipating the future by a little - The survey of the Neemsun taluk was not complete till recently as there was some mistake in the first survey and a second survey was necessary in some places - And in June or July last I was able to obtain the survey accounts showing the numbers & areas of fields as by survey side by side with those as per current accounts, with names of occupants - I intended to have the Port Pahaun effected with the aid of these as soon as the crop was ripe - and by this time we should have the whole of Kaccha Port Pahaun mapped also from the survey dept -

2 Lands irrigated by the first ten miles of Channel (it may be even eleven) have been well under cultivation these three years - More under the next four (or three) miles have been so there years (I do not have said even three dept had not suddenly closed since prematurely on ... 88) The next 6 or 7 miles irrigated for the first time ... 88) tho' even a portion of ... manded by a Chan... ... Dey) has been

Please reply to the following Effect:

Acknowledge & say that I find in your letter not sufficient information to come to a decision on the question raised, & thought it desirable to obtain from your predecessor a brief Note of the action previously taken in the matter. An Extract from this Note [ ] is enclosed for your information.

2. The Dewan is of opinion that the Patpahaun should be at once taken in hand and completed as quickly as possible, and with the progress of the Patpahaun & the Channel lands, the process of assessing the Contribution will proceed - And so soon as the latter is assessed, [illegible] steps, it is thought, should be taken to collect the same.

3. The Dewan is of opinion that

4 I am to add that if any concession is really required

well cultivated before -

5 An examination by Revenue Officers with proper acreage returns should show what contributions & Channel improvements and boundary marks charges do always press together with the rent or not - In individual cases it may be the case that the levy of the charges rather than postponement or collection of contributions would retard the assessment of contributions, and the proceeding of a course pursued in the case of the Neemsun Channel and laid down in the Proc of 8th Oct 88 with the full Consent of all interests

6 In these cases there must always be individual cases of hardship requiring gentle treatment, & these should receive consideration individually on detail without their justifying a general concession of the kind elsewhere too readily recommended on the Claim of a [illegible] forward [illegible] -

5/3

P.S. In reply to the question "How is net assessment levied" I have to state that the old wet rates are in force & levied in the usual course on old areas - There is a great deal of concealment of areas in the accounts, as can be easily imagined to be natural under the former Zemindari management

~~Re-question in~~ (which this I do
is unable to accept
Case without a much fuller
report ~~& complete statement~~)
giving details in ¶ 5.) it is best
given by extending the period
for payment ~~to~~ by one ~~&~~ to two ^ or even three years
according to the situation of
the lands, ~~&~~ the amount
of work required to terrace them, &c &c.

~~In any Case the Collector~~

If upon your further report (with individual lists
~~showing~~ giving full
particulars in Each
Case, including date of purchase
as by the holder)
Good Grounds appear for some
such Concession as the above ~~then~~ the Govt may decide to
~~may be possible to grant~~ allow ¼ ~~of~~
be paid at once, & the remainder
during 1890/91 ordinary and the
the Collector to allow postponements
~~to the following~~ on the following Scale:—

~~(1)~~ For lands under cultn from new channel Contribution to
(1) for 3 years ~~as~~ the whole to be paid at once
(2) for 2 years ... half for this yr & half in 1890/91
(3) for 1 season (i.e. 1889-90) One Quarter this year
One Quarter in 1890-91 & One
half in 1890-91 —

~~the Govt decide that~~

5. It will then be seen that all
lands must pay ~~proportion~~ in a fair
the Current year ~~Issue~~ Giving the whole or a
portion of the acreage Contribution
according to the length of time
during which they have Enjoyed
the benefit of the new irrigation
~~that those~~ to ~~of~~ have ~~taken down~~ decreased
the full benefit of the new irrigation
for 2 or 3 years, & have made
large profits from the more
Valuable Crops raised,
~~after these~~ realized large
~~from~~ which ~~the~~ the new irrigation
~~thereby~~ enabled them to raise — and
many of these ^ Ryots have also
for very good ~~reasons~~ been able to sell large
portions of their ~~newly~~ land
Converted ^ into wet, with
more definite arrangement
for payment of Contribution
by the purchaser — ~~under that~~

In the case of such persons ~~the~~ the Concession recommended by the D.C. ~~of~~ as
given the one above ~~to wholly or~~ indicated in para
will be wholly uncalled for — The Case
of ~~a~~ ~~occupier~~ Cultivating Ryot (not the non-Cultivating
Occupants who have ~~acquired~~ purchased the land after Commencement

6. The Govt ~~thinks~~ trust that ~~it~~ ^ no
~~may~~ safely be
said of the Ramapuram
& Gannavaram

And I am to request you to take the
needful ~~action~~ action at once, Entering
as required Pub. Proh. Gott., ~~Notice~~ in
anticipation of Sanction

of course

of Channel work will receive favourable
Consideration from Govt in the manner
proposed in para above, if it
can be shown that he has been put to
expense in preparing his land for
~~difficulty in bringing~~ ~~about the~~ wet Cultn, ~~ploughing~~ & is really
unable to pay ~~for the Increase~~ the full Contribution ~~without undue~~ hardship - But this
is one lump sum ~~If the~~ ~~The~~ Diwan
believes that the W. of men coming
under this Category will be found
to be very small indeed, the
so called "principal Ryots" being
probably monied men of Mysore City
who have newly invested under the
Rampur ~~and Bamboo~~ Channel
and who apparently think to
get by clamour what they never
never thought of stipulating for
with the Govt —

2nd January 1890. (3)

GOVERNMENT OF MYSORE
R. R.
10 of 1889
Secretariat

From

G. F. Meiklejohn Esquire
Deputy Commissioner
Mysore District

To,

The Chief Secretary to the
Government of Mysore

Sir,

With reference to Government
Proceedings No 618 dated 18th September
1886 anent Rampur Channel, I
have the honor to state that I have
recently personally inspected some
of the lands under this Channel and
had interviews with some of the
principal ryots -

2. The contribution now due from
the ryots, amounts in all to about Rupees
1,24,723 - " - "

3. I beg strongly to recommend
that I may be allowed to postpone
the recovery of this amount until
these lands are surveyed and
settled and then that it may be
recovered in instalments extending

over 3 years-

4- Para 4 of the Proceedings directs the survey of these lands to be carried out at once. They have been surveyed, but the survey by itself without the "Hunt Pahani" is of no use in assessing the contribution-

5. I have written to the Superintendent of survey begging him to have these lands classed this year and request the favor of your also pressing the matter on his attention.

6- A further reason for my re-commending a postponement of the levy of the contribution, is that these ryots have this year to pay up a heavy demand on account of Boundary mark charges- To ask for the contribution on the top of this, would press heavily on them especially as there is some-thing like Rs 11,000 arrears as well to be collected from this Hobli-

I have the honor to be,
Sir,
Your most obedt Servt
J. Mackeyson
Deputy Commissioner
Mysore District

(4)

No. 9519/610.

L.R.
10-1889
2

To,
The Deputy Commissioner
Mysore Dist.
Dated. 5th March 1890.

Sir,

I am directed to acknowledge receipt of your letter No. 862 dated 21st January 1890, recommending the postponement of the recovery of contributions from the ryots holding lands below the Rampur Channel in the Nanjangud Taluk, and to state that, not finding in your letter sufficient information to enable him to come to a decision on the question raised, the Dewan has thought it desirable to obtain from your predecessor a brief statement of the action previously taken in the matter. An extract from this statement is enclosed for your information.

2. The Dewan is of

of opinion that the Put-
-pahani should be at
once taken in hand and
completed as quickly as
possible, and that simul-
-taneously with the pro-gress
of the Putpahani of the
Channel lands, the process
of assessing the acreage
Contribution should pro-ceed.
As soon as the ~~Latter~~ Contribution is
assessed upon any partic-
-lar land, steps, I am to
add, should be taken
to collect the same.

3. The Dewan is of
opinion that an examin-
-ation myotwar will proba-
-bly show that acreage
contributions and Boundary
marks' charges do not
always press together on
the same individual, or
with Equal weight - In
individual instances in
which this may be the
case, it may be desirable
to postpone the levy of
Boundary marks' charges
rather than postpone the
collection of contributions.
Post-ponement of collection
and even of the assessment
of

of contributions would retard
in a way the execution of
an important policy of
Government inaugurated
in the case of the Rampur
Channel with the full
consent of all interested,
and laid down in the
Proceedings of 1st October 1888.
There must of course always
be individual cases of
hardship requiring gentle
treatment, and these should
receive consideration indi-
-vidually and in detail
without their justifying a
general concession of the
kind apparently too readily
recommended on the clamour
of a few forward ryots.

4. I am to add that if
any concession is really
required (which the Dewan
is unable to accept to be the
case without a much fuller
report giving detailed inform
ation) it is best given by
extending the period for
payment by one, two, or even
three years, according to the
situation of the lands, the
amount of work required
to terrace them, &c &c.

If

If upon your further report (with individual lists giving full particulars in each case, including date of purchase if any, by the holder) good grounds appear for some such concession as the above, then the Government may decide to allow postponements somewhat on the following scale:-

(1) For lands under cultivation) ~~from new channel~~.
from new channel
(1) for 3 seasons --- (the whole contribution amount to be paid at once.

(2) Ditto (2) for 2 seasons --- half this year & half in 1890-91

& (3) Ditto for 1 season --- (in 1889-90) one quarter this year
one quarter in 1890-91 &
and one half in 1891-92.

5. It will thus be seen that all lands must pay in, or for the current year, either the whole or a portion of the acreage contribution, according to the length of time during which they have enjoyed the benefit of the new irrigation, and I am to request you to take the needful action at once, entertaining any required Pattpahani Establishment, in anticipation of sanction and reporting the same.

/-

6. The Dewan thinks that it may safely be said of the ~~Raoofpoor~~ Kyots, generally that they have derived the full benefit of the new irrigation for 2 or 3 years and to have made large profits from the more valuable crops which the new irrigation enabled them to raise - and many of these ryots have also been able to sell for very good prices, large portions of their lands newly converted or to be converted into wet, with some definite arrangement for payment of the contribution by the purchaser. In the case of such persons, the concession recommended by ~~the Deputy Commissioner~~ You, or even the one above indicated in para 4, will be wholly uncalled for. The case of a cultivating Ryot (not the non-cultivating occupants who have purchased the land after commencement of Channel work) will, of course, receive favorable consideration from

from Government in the manner proposed in para 4 above, if it can be shewn that he has been put to great expense in preparing his land for wet cultivation, and is really unable to pay the full contribution in one lump sum without undue hardship - But the Dewan believes that the number ~~of~~ of men coming under this category will be found to be very small indeed, the so called "principal Ryots" being probably monied men of Mysore City, who have newly invested under the Rampur Channel and who apparently think to get by clamour what their vendors never thought of stipulating for with the Government.

I have &c.

6/3

Chief Secretary

Extract from the statement of Mr. T. Ananda Row

* * *

While in the District Office I had taken steps preliminary to assessing the contributions. Puttpahani is always an operation effected by the Revenue Department, and if the Puttpahani of a whole Taluk can be effected in 2 or 3 months as is often done when the settlement is to be introduced that of one Hobly like Rampur can be done in much less time. Special agency will of course be required in the one case as in the other, and its employment at once for Rampur Hobly and other villages commanded by the Channel extension is only anticipating the future by a little. The survey of the Rampur Hobly was not complete till recently, as there was some mistake in the first survey and a second survey was necessary

..necessary in some places-
. And in June or July last-
I was able to obtain the
survey accounts showing the
numbers and areas of fields
as by survey side by side
with those as per current
accounts, with names of
occupants. I intended to
have the pût-pahani effect-
ed with the aid of this
as soon as the crop was ripe;
and by this time Mr. Meikle-
john should be able to
obtain the loan (at least)
of Kaccha maps also from
the Survey Department.
2. Lands irrigated by
the first ten miles of chan-
-nel (it may be even eleven)
have been well under
cultivation these three years.
Those under the next four
(or three) miles have been
so these two years (I would
have said even three, if
the Channel Department
had not ruthlessly closed
the head sluice prematurely
in December 1887 or January
1888) The next 6 or 7 miles
have been irrigated for
the first time this year

(1889-90) though even a portion
of this (that commanded by
a channel from the Yenné
-haléy) has been well culti-
-vated before.

No 1223
Ex I.

Deputy Commissioner's Office
GOVERNMENT OF MYSORE
Mysore District

Dated Mysore 10/12 January 1891.

From,

G. J. Meiklejohn Esquire
Deputy Commissioner

To,

The Chief Secretary to the
Government of Mysore

Sir,

With reference to the correspondence ending with your No. 9519/610 of 5th March 1890 in re the levy of contributions from the ryots holding lands under the Rampur channel extension in the Nanjanged Taluk, I have the honor to submit herewith in original 1st. General Assistant Commissioner's letter No 70 of instant.

2. As soon as the Phut Pahani was completed Mr. Muhammad Ali was sent to Nanjanged to settle the contribution question on the spot, in accordance with the orders laid down in your letter No 9519/610 dated 5th March 1890.

3. Mr. Muhammad Ali proposes – Vide paras 5 and 11 of his report received yesterday – that the contribution should be collected as follows:–

(1) That contribution be levied at once on all irrigated lands in the Rampur

Hobli from the 1st to 10th mile which have already yielded 2 crops and are under wet cultivation this year for the 3d time.

(2) That on lands from 10th to 20th mile in the above Hobli which were irrigated only last year and are again under wet cultivation this season the contribution be levied half this year and half in the next.

(3) That on lands in the Hadinaru Hobli from 20th to 32d mile, which were supplied with water for the first time this year, the contribution be levied in three instalments, viz 1/4 this year, 1/4 in the next and 1/2 in the 3d. year.

4. With reference to para 6 of the letter, in which it is stated that there are lands still lying waste under the channel as noted in the margin, from no fault of the owners, Mr Muhammad Ali has been liberal in his recommendations ordering postponement of contribution on these till such time as they are brought under cultivation, when he proposes to levy it in 3 instalments. This may be done.

5. The following is roughly the result of the settlement of the contribution:-

Acres	Guntas	
352.	3	Between the 1st and 10th mile in the Raunpur Hobli.
657.	19.	Between the 10th and 20th mile in - do -

To be collected at once Rs 69,348-
next year. Rs 57,241 and in the
3d year Rs 44,834, in all Rs 1,65,423.

6. The favor of an early reply is requested so that the accounts may be adjusted accordingly and the collection commenced forthwith.

I have the honor to be,
Sir,
Your most obed.t Servant,
G. L. Mac Gregor
Deputy Commissioner
Mysore District

6/a

From

The 1st Assistant Commissioner
Mysore

To

The Deputy Commissioner
Mysore

Sir —

I beg to submit the ×accompanying statements shewing the amount of contributions payable on lands below the Kampen Channel as ascertained according to the Survey Measurement.

2. During my Jamabandy I read out these amounts to the ryots and received several petitions both individually and collectively praying for postponements. Most of the Complaints which were based upon

× Sent in separate packet (to be kindly returned after perusal)

× (Not received in this office)

there and there, but there were some which appeared to me to call for consideration.

3. The land holders prayed in general for postponement chiefly on the ground that all their lands had not yet been irrigated and there was no likelihood of their higher lands being watered for some years to come with the present supply of the Channel, although they may be prepared to level and terrace them at once.

4. I talked with several land holders and carefully studied the subject. There is some reason in what they assert.

5. The Rampur Channel is to be 34 miles long. In the year 1888-89 the Channel was first opened from 1st to 10 miles below which are situated the five villages of the Rampur Hobali named in the margin. The irrigable lands in this part therefore yielded crops in two years and this is the third season

× 1. Rampur
2. Kenkal
3. Bidarapad
4. Maralur
5. Goddanapur

of their being under cultivation from the Channel. In 1889-90 the Channel was extended from the 10" to 20" Mile and water was supplied to the marginally noted 10 villages of the same Hobali. The irrigated lands lying within this range have therefore reaped crops in one year and they are again planted this year. From the 20" to 32nd Mile the water in the Channel was let in only this year 1890-91 to the 11 villages noted in the margin which chiefly belong to the Hadinar Hobali and lands such as to which the water can at present flow are therefore just being cultivated. The Channel has not as yet been excavated from the 32nd to the 34" Mile as the Jahagirdar of Koppala, I learn, is not willing to bring his lands under wet cultivation and pay contribution to Government.

6. In the Rampur Hobali of which the first portion has had the full benefit

※
1. Konahally
2. Neelagalhally
3. Chandapa
4. Chikyanachakra
5. Basavanpura
6. Hejjigary
7. Kempesowdanhoondi (Muzzrey of 906)
8. Dramavoo
9. Immavoo
10. Koppalavarahoondi (Muzzrey of 909)

⊛
1. Hooliyaravoo
2. Hadinar
3. Moley (Muzzrey of 902)
4. Mooddahalli
5. Bokkahalli
6. Klathoor
7. Moley (Muzzrey of 906)
8. Hoskoley (Inam)
9. Thoombenaimley
10. Nandigoonda
11. Nedakola (Koppal Taluk)

past 3 years and the 2nd portion for the past two years: there are occupied lands which are still lying waste to the extent of 352 acres and 3 goontas in the former and 687 acres and 19 goontas in the latter; and it cannot be said that it is entirely owing to the laziness of the owners, because it is doubtful whether these lands can be irrigated without further improvement in the channel itself.

7. The occupied lands on which the contributions are now demanded include both which have been irrigated and are not now irrigated. In order to bring all the present non-irrigated area completely under cultivation, I dare say, it will be necessary as time goes on to increase the number of the present pipes of the channel and likewise make the requisite alterations in their size and situation according to emergencies. It is therefore a question whether the occupied lands which come below the channel but are yet lying waste should also be called upon to pay any quota of the contribution at once.

GOVERNMENT OF MYSORE

8. With regard to the villages of the Hadinar Hobali extending from 20th to 32nd Mile as they have received only water in the present year and their lands have yielded no crop as yet a gentle treatment in general compared with the Ramapura Hobali is necessary.

9. It is best that the same rule is applied to the old owners as well as the new owners by purchase & the concessions are not restricted to individual cases only, for after all, when individual cases are numerous they necessarily assume the form of a general question.

10. I therefore beg to submit the following proposals which if they meet with your approval may be submitted to Government for consideration.

"(1) For all the irrigated lands in the Ramapura Hobali from the 1st to 10th Mile no postponements to be granted. The contributions

up at once.

(2) For all irrigated lands in the Ramjan Khalali from the 10" to the 20" Mile half this year and half in the next.

(3) For all irrigated lands in the Hadi or Khalali and other villages from the 20" to 32nd mile 1/4 this year, 1/4 in the next and 1/2 in the 3d year.

(4) All the occupied waste lands below the Channel which are not yet cultivated may be exempted from the contributions at present but be called upon to pay their shares in 3 instalments of 1/4 1/4 and 1/2 in each year commencing from the year they are brought under cultivation.

12. If these general concessions are acceded to by the Government, I am of opinion that the present clamour for postponements, which I must say is not confined to Jam Jowand ryots only, will cease and the contributions will be levied with facility.

13. There were two other objections raised by the ryots during my Jamabundi

[illegible] below the Channel 200 Calculated by P. W. D. — 7508 acres.
Deduct Khot Khalab and other [illegible]
Deduct area originally estimated.

		— do —
Difference	6266	— do —
	4950	— do —
Difference	1316	— do —

Jamabundi by. They stated that as only about 4950 acres were estimated to be irrigated according to the Government Proceedings No 618 dated 18th September 1888 1886 and as the area has now been considerably increased the rates of contribution originally fixed should also be proportionately reduced. This was very ingenuous. But upon comparing figures as shown in the margin the increase of 1316 acres on the whole does not appear to be very extraordinary and I presume that the rates of contribution were not based entirely upon the rough area calculated to be brought under cultivation; but also on the amount which the extension of the Channel was estimated to cost which remains all the same.

14. Others urged that their lands were originally classed and assessed at wet and when the Channel fell in disrepair they were temporarily converted into dry lands and it was therefore unfair to levy the dry rates of Rs 3[illegible]

which is allotted for wet lands.
I fail to see the force of this argument. If the lands are now paying dry assessment, they must, I think, pay the dry rate of contribution.

I have the honor to be

Dewan's Office
16 Feb 91

Read:—

Letter No 1223 of the 10th January 1891 from the Deputy Commissioner of the Mysore District.

No. 12466-8/723 97-2-91/12 Order thereon.—

The proposals made by Mr. Mahomed Ali and supported by the Deputy Commissioner for the levy of contributions from the Ryots holding lands under the Ramapur Channel extension in the Nanjangode Taluk in the following manner, are sanctioned. They are very liberal & shd. thereby be strictly carried out

(1) For lands from the 1st to the 10th mile in the Ramapur Halli which are stated to have been

supplied with water from the improved channel built in 1888-89 and which have thereby yielded 2 crops and are under wet cultivation this year for the 3rd time, under the improved irrigation — Full amount of contribution to be levied at once.

(2.) For lands from the 10th to the 20th mile in the Rampur Haveli, which were first supplied with water from the improved channel in 1889-90, and are again under wet cultivation this season. — Half the amount of Contribution to be levied this year (1890-91) and the other half in 1891-92.

(3.) For lands from the 20th to the 32nd mile in the Hadinaru Haveli which were Supplied with water for the 1st time this year (1890-91). — The Contribution to be levied in three instalments, viz, 1/4th this year (1890-91), 1/4th in 1891-92 and 1/2 in 1892-93.

2. The proposal for the present to postpone levy of contributions on lands not yet irrigate requires further examination. The area of such lands is given as about 1,010 acres, and from Assistant Commissioner Mr Mahomedali's report it appears that some of these are irrigable under existing facilities and some under facilities

which are in the power of the D. P. W to afford. As to the former, the attention of the Deputy Commissioner is invited to the provisions of Section 53 of the Land Revenue Code, under which water rate is chargeable on all lands for which irrigation is made available. The owners of such lands should be urged to irrigate such lands without further delay. As to the latter class of lands, the Chief Engineer will be requested to have them carefully examined and all practicable facilities

Granted

granted. The Deputy Commissioner is requested to report how much of the 1,010 acres belongs to the former class and how much to the latter.

3. The reason why the Inamdars of Koppa-gala Village does not appreciate irrigation as well as the large number of land holders higher up the Channel, is not explained. The Deputy Commissioner will ascertain the cause and correct any misapprehensions which may exist on the part of the Inamdars. The Deputy Commissioner

will also ascertain and report whether the Ryots holding lands in the Village have a better appreciation of water and would have it on the same terms as the Government Ryots.

4. Now that the Phut Pahani of the lands under the Channel is completed, the Deputy Commissioner will submit a statement in the annexed form, for the information of Government as early as possible.

Chief Secretary.
